Validity:  
2023/12/05

Functions and performance levels:

**EN 420:2003 + A1:2009. Protective gloves. General requirements and test methods:**

the gloves satisfy the general requirements of design and manufacturing, innocuousness, ergonomic properties.

**EN 13594:2015. Protective gloves for motorcycle riders:**

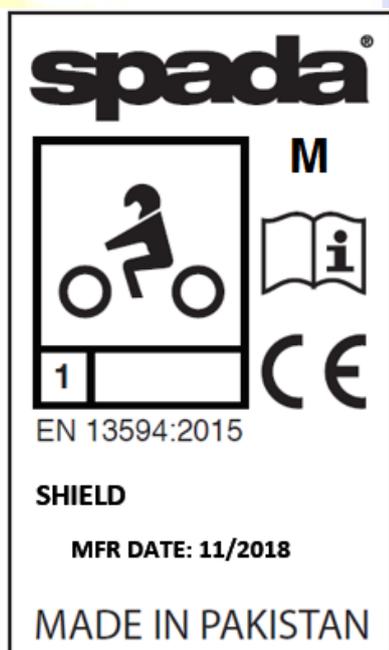

According to the basic requirements tested and assessed, this glove has obtained an overall performance level of **1** (\*).

(\*): the higher level provided by the technical standard is level 2, granted to gloves providing an increased protection with respect to level 1 but might have weight and ergonomic restriction penalties.

Marking:

printed on a stitched label and displaying the following information:

- **CE Marking;**
- registered Trademark of the Manufacturer;
- item designation (article name);
- pictogram to indicate the intended use (motorcycling) and overall level of performance achieved;
- nr. and year of the reference Standard;
- size indication;
- pictogram instructing to read the User Manual;
- additional information: date of manufacture (MFR DATE), "Made in...".

NOTE: the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements. The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
